

## Advancing Swimwear

Texollini's advanced manufacturing capabilities and rigorous quality control make us an ideal partner for innovative swim apparel.

### Revolutionary Construction

Our proprietary Superfino<sup>®</sup> and Ultrafino<sup>®</sup> fabrics have changed the swimwear market. We invented both unique constructions to provide supreme comfort, feel, performance, and outstanding fit. This European quality is created right here in our LA facility, ensuring quick delivery.

### Advanced Options

Our knitting and dyeing capabilities offer world-class quality and performance. We offer solids, textured/novelty knits, prints and PFP fabrics for digital printing. Our advanced color and testing labs ensure color fastness and consistency—both critical to swimwear.

**Finishes:** UV protection, Sueding, Vaportex<sup>®</sup> (moisture management)

**Fibers:** Micro Denier, Tactel<sup>®</sup>, X-tra Life Lycra<sup>®</sup>, Repreve<sup>®</sup> (recycled fibers)

**Additional Benefits:** Color fastness, trend forecasting, quality assurance, fabrics & colors designed specifically for the swimwear market
